

SEALECTION™ 500

Conductive Heat Flow Resistance

Note: DEMILEC SEALECTION™ 500 is an air-impermeable insulation in accordance with the 2007 Supplement to the 2006 IRC, Chapter 2, Definitions, which defines an air-impermeable insulation as having an air permance equal to or less than 0.02 L/s-m² at 75 PA pressure differential according to ASTM E 283.
